

Drum Heater

P-

Our Drum Heaters are designed to provide practical and efficient means of freeze protection, viscosity control, and ease of maintenance in elevated temperatures.

● **Features:**

- The rubber have advantage on feez protection, viscosity control, melting, or keeping elevated temperatures
- Maximum temperature 300 °F
- Variety of standard sizes
- With a built in thermostat
- UC & CSA approved

L x W (mm)	Watts	Ampere (A)	Voltage (V)	Item No.
837 x 4152.4	300	2.6	115	DH-207A115V-L29
837 x 76.2	300	2.6	115	DH-207A115V-L32
837 x 101.6	450	3.9	115	DH-309A115V-L32
1078 x 76.2	500	4.3	115	DH-404A115V-L38
